This third volume in the AOSpine Masters Series covers the most common operative techniques for treating degenerative cervical conditions. The book provides expert guidance to help clinicians make the right treatment decisions and provide the best care for their patients. Chapter topics range from Laminectomy and Fusion for Cervical Spondylotic Myelopathy to Complications on Anterior Surgery: VA Injury, Esophageal Perforation, and Dysphagia.

- Synthesizes the best available evidence and consensus expert advice on each operative technique for degenerative cervical conditions, leading to optimal clinical recommendations
- Editors are internationally recognized authorities on the treatment of degenerative cervical conditions
- Each chapter includes tips and pearls from leaders in the field
