

Ultrasound International Open

Authors' Guidelines

We are delighted that you want to publish in a Thieme journal.

Thieme is an international publisher of medical and science books, journals, electronic products and services, with a long-standing reputation for consistent quality and integrity. On publication, you will have benefited from peer review at the highest level and you will reach a broad professional audience. In addition, you will receive a 20% author's discount on all Thieme books for 3 months.

To make submission of your article as efficient as possible, see the information below.

We look forward to receiving your manuscript!

Please note: We only accept manuscripts that have not yet been published or submitted elsewhere. If the content of your article has already been presented orally at a conference, please note this with details of the conference type, place, and date.

The **corresponding author** must ensure that all the other authors agree with the publication of the article in the version presented.

With acceptance of the manuscript, the publisher acquires rights of use for the duration of the legal protection term.

About Ultrasound International Open

Ultrasound International Open (UIO) publishes scientific papers and contributions from a variety of disciplines on the diagnostic and therapeutic applications of ultrasound with an emphasis on clinical application. Technical papers with a physiological theme as well as the interaction between ultrasound and biological systems might also occasionally be considered for peer review and publication, provided that the translational relevance is high and the link with clinical applications is tight. The editors and the publisher reserve the right to publish selected articles online only. Authors are welcome to submit supplementary video material. Letters and comments are also accepted, promoting a vivid exchange of opinions and scientific discussions.

All articles submitted to Ultrasound International Open undergo rigorous double-blind peer review. With web-based manuscript submission and expedited turn-around, rapid electronic and print publication is guaranteed.

As an Open Access publication, all articles in UIO are made freely available for all to read and download from Thieme E-Journals.

Publication language is English.

Ultrasound International Open: journal-specific guidelines

The necessary components of your manuscript and formatting guidelines are listed in the following table.

Manuscript Element/ Manuscript Type	Review	Original Article, Technical Developments, Rapid Communication	Case Report, Pictorial Essay	Letter to the Editor	Submission via ScholarOne: http://mc.manuscriptcentral.com/UIO
Author and Institution Information	English only Names, addresses or any information which may indicate the identity of the author(s) may not be included in the manuscript.				Entry only in specified input fields during submission in Scholar One. Please do not include in main text document.
Title	English and German ¹ . Maximum of 200 char. (including spaces) for each language ¹ . Enter second language title in the appropriate window. (For authors who do not know German: insert “n/a” instead.)		proper title (e.g. “Letter to the Editor on the article [reference of article] . . .”).		Entry only in specified input fields during submission in Scholar One. Please do not include in main text document.
Abstract	English and German ¹ ; maximum of 1700 char. (including spaces), for each language.		No abstract (please insert “n/a” in the appropriate window when submitting your manuscript online		Entry only in the specified input field during submission in Scholar One. Please do not include in main text document. Please do not upload it as a separate file during the file upload, except for corrections in revisions
	Non-structured	Structured in Purpose, Materials and Methods, Results, Conclusion (German: <i>Zusammenfassung</i> structured in <i>Ziel, Material und Methode, Ergebnisse</i> and <i>Schlussfolgerungen</i>)			
Keywords	English; 3 – 5 keywords		No keywords (please insert “n/a” in the appropriate window when submitting your manuscript online		Entry only in specified input fields during submission in Scholar One. You can choose from the key words in the list or enter your own key words in the input fields.
Main Text	English only; manuscript main text in Word format. The STARD 2015 checklist (Standards for Reporting of Diagnostic Accuracy) should be followed where appropriate (www.stard-statement.org). References to figures and tables: should appear chronologically in the manuscript main text. Abbreviate using “Fig.” (also for diagrams/illustrations) and “Tab.”. Literature references: all literature in the bibliography is to be cited in order of appearance in the manuscript main text using Arabic numerals surrounded by square brackets. The bibliography appears after the manuscript main text and lists all literature in sequence. See “Citation Format” in this table for examples.		Setup: Introduction, case description, discussion. No list of references. Pictorial Essay: Up to 10 figures. References to figures should appear chronologically. Case Report: Up to 4 figures. Up to 3 catchwords phrases at the end of the contribution.	The editors decide on publication of the letter and the authors' response (if applicable).	Upload manuscript text and bibliography (excluding abstract(s), figures and tables): <i>File Designation:</i> 1. Main Document REVISIONS: Save the manuscript that has been reviewed in Scholar One to your hard drive. Make changes to manuscript using “Track Changes” in Word. ³
Maximum Length²	Max. 34,000 char. (including spaces) including a	Max. 24,000 char. (including spaces) (Rapid Communication: 16,000 char.) including a maximum of 30 citations	Max. 6,000 char. (including spaces) Up to 5 references integrated into the text in brief form (M. Frieser et	Max. 6,000 char. (including spaces), including the references (if present)	

Manuscript Element/ Manuscript Type	Review	Original Article, Technical Developments, Rapid Communication	Case Report, Pictorial Essay	Letter to the Editor	Submission via ScholarOne: http://mc.manuscriptcentral.com/UIO
	maximum of 50 citations		al. <i>Ultraschall in Med</i> 2007; 28: 176 – 180).		
Figures	Figure quality: 1000 pixel width (300 dpi with a width of 8.5 cm) <ul style="list-style-type: none"> • File formats: JPG or TIFF for images. • Figures with multiple sub-elements: please use small letters to classify each (a, b, c, d, etc.). • Legend /caption texts: English only; Figures having sub-elements which are classified using small letters (a, b, c, d, etc.) should have a legend that addresses each sub-element. Please do not include figures in the main document. Each figure should be uploaded as a separate file.				Upload in Scholar One individually; <i>File Designation:</i> 2. Image Figure legends including figure number should be entered in the appropriate field during the file upload – look for “Caption/ Legend” during file upload. (Do not submit figure legends via Word file.)
Tables	English only. Each table must have a table legend and either one table header over all columns or a header for each column. The editors and the publisher reserve the right to publish some of the tables online only – especially large ones, if their size exceed the provided space.	No tables			Upload all tables together as one Word file in Scholar One; <i>File Designation:</i> 3. Tabelle

<p>¹ Authors who do not know German may provide English only.</p> <p>² Values quoted here include blank spaces and refer to the length of the manuscripts including the bibliography. The number of characters can easily be found in Microsoft Word using “Tools” → “Word Count”.</p> <p>³ To activate the “Track Changes” function in Word, go to “Tools” → “Track Changes” → “Highlight Changes”. Activate all check boxes in the “Highlight Changes” window.</p>					

Submitting your manuscript

Please submit your manuscript online at <https://mc.manuscriptcentral.com/uio>. For questions about manuscript submission or technical inquiries, e.g. regarding the use of figures, please contact the UIO Editorial Office at uio.editorialoffice@thieme.de or call +49/(0)7 11/89 31-614.

General guidelines for scientific articles

In addition to the specific guidelines for UIO manuscripts listed in the above table, please read the following general guidelines for scientific articles: [scientific articles pdf](#)

Citation management software

If you are working with citation management software (Endnote, Zotero, Mendeley), please use the output style "Thieme-English". It is available in the relevant software or can be downloaded from our [authors' lounge](#).

Figures

Unfortunately, we cannot accept **images that have already been published in books, journals, or electronic products of other publishers**. That is because it is almost impossible to obtain the necessary rights of use even when licensing fees are paid. Therefore, **please do not pay any licensing fees** (e.g. to "RightsLink" / Copyright Clearance Center). Standard license contracts from "Creative Commons" are unfortunately also insufficient for our purposes. Please contact us if you have any questions regarding the use of images.

We cannot accept or store illustrations that include **personal data of third parties**. Please submit only images in a completely anonymous form, **free of all personal data**. This refers not only to data directly visible in the image (e.g., a patient name or a date of birth on an X-ray image) but also to information included in the metadata of the image that is accessible with the appropriate software. It includes data that may have been obscured by a cropping feature (such as in PowerPoint or Word) but can still be made visible. If you have questions about data protection regulations, please contact us before submitting your manuscript.

File format and general requirements

Please submit your files in the following forms:

- **Text and tables:** MSWord (*.doc, *.docx)
- **Figures:** Each figure as a separate image file (*.jpg, *.tif, *.png); MS Word and PowerPoint can also be used for drawings and graphics. Minimum resolution: 300 dpi with a width of 8.5 cm (1000 pixel width)
- **Videos:** Preferred file format *.mp4, *.avi or *.mov; file size maximum 5 MB per video
- **Audio files:** Preferred file format *.wav

In addition:

- Text may contain headings of up to three levels
- **Boxes:** Please always provide a title

Ethical aspects

Please clarify whether your study requires the advice or approval of an ethics committee and / or a government authority. For more information, see the [International Committee of Medical Journal Editors \(ICMJE\)](#) and the [Declaration of Helsinki](#).

- For all studies involving persons, the author must, if applicable, have a positive vote of the relevant regional or institutional ethics committee and / or a government authority. In the absence of a vote, such as in the case of retrospective studies, this shall be explained in a statement to the editor. In such cases, the corresponding author must confirm compliance with the current version of the [Declaration of Helsinki](#). Both are to be specified in the “Methods” part of the article.
- For clinical trials, please add the Clinical Trial Registration Number (e.g. [ClinicalTrials.gov](#) or [ISRCTN Registry](#)) in the manuscript.
- Patient names, initials or file numbers may only be used with the written permission of the patient (please pay attention to illustrations). You can obtain the corresponding form from your contact person in our publishing house or online in our [authors' lounge](#).
- In experiments with animals, all applicable provisions of **animal welfare** must be observed. This must be confirmed in the “Methods” part of the article.

Conflict of Interest

This journal follows the guidelines of the [International Committee of Medical Journal Editors \(ICMJE\)](#) regarding the disclosure of potential conflicts of interest. Possible conflicts of interest must be indicated at the time of manuscript submission – for this please download and complete the following form: [Thieme COI Conflict of interest english.pdf](#). It is the responsibility of the corresponding author to ensure that all authors adhere to this policy. If your manuscript is accepted for publication, you will again receive our COI form along with the galley proof (see below) so that you can update this information if necessary. Note that a conflict of interest statement must be included in the manuscript (after the Acknowledgments and Funding sections, if present); if there is no conflict of interest, authors must include 'Conflict of Interest: none declared'.

Forms

The personal rights of people who are recognizable on images must be protected. Please provide a written consent form for publication signed by every recognizable person. For persons under 18 years of age/supervised persons, please provide the signature of both parents/the legal guardian/supervisor. A suitable declaration of consent form can be obtained in our [authors' lounge](#).

Article Processing Charges

You may be personally invited to publish in UIO or you have a submission voucher - in this case no article processing charge (APC) will be charged and you will be asked to fill in the code number when submitting your manuscript. An article processing charge (APC) will be charged for every accepted manuscript published in UIO and the APC is adjusted once a year. Current APCs are listed here: https://www.thieme.com/apcs/UIO_APC.pdf. Payment methods are indicated during the submission process. An article will be published once payment has been received. You may want to contact your funder about covering these costs. Many grant-giving bodies have special funds reserved for APCs. Please note that there are no *submission* charges.

Author's correction, imprimatur, specimen copy

The corresponding author will receive the **galley proofs as a PDF file**. He/she is fully responsible for the correctness of the final version that he/she releases for publication. Once the copyright transfer agreement has been submitted, changes by the authors are no longer possible.

After publication, the corresponding authors will receive a free **electronic reprint (PDF file)**. They may use this file for professional exchange with colleagues and may upload the file to their personal homepage. Please note that all further use of this PDF is subject to approval by the publisher. In particular, any commercial use or deposition of the file in repositories (e.g. document servers of libraries and other institutions) is prohibited.
